# BUILDING CHATBOT:

The screenshot displays the IBM Watson Assistant web interface. The top navigation bar includes the text "IBM Watson Assistant Lite", an "Upgrade" button, a dropdown menu for "HOSPOTIAL", and a "Learning center" link. The main content area is titled "Actions" and features a sidebar on the left with options: "Actions" (selected), "Created by you", "Set by assistant", "Variables", "Created by you", "Set by assistant", "Set by integration", and "Saved responses". The main panel shows a table of actions with the following data:

| Name   | Last edited    | Examples Count | Status |
|--------|----------------|----------------|--------|
| Hai    | 2 hours ago    | 1              | ✓      |
| Male   | 38 minutes ago | 1              | ✓      |
| Female | 21 minutes ago | 1              | ✓      |

At the bottom of the interface, there is a "Preview" button and a pagination control showing "Items per page: 50" and "Showing 1–3 of 3 actions".
